

**2024 AANA Helen Lamb Outstanding Educator Award**  
**Angela Mund, DNP, CRNA**

I am honored to receive this prestigious award. I am proud to have followed in the footsteps of Helen Lamb, a noted nurse anesthesia educator who served on the AANA education committee and is a former AANA President. One of the greatest areas of satisfaction in my career has been being involved in the education of nurse anesthesia residents and CRNAs. I have wanted to be an educator since my earliest days as an ICU nurse in the early 1990s and strived to use the newest and best possible information and, importantly, to engage others in active learning. To nurse anesthesia residents, I have learned so much from you as we are mutually engaged in learning.

Special thank you to my friend and colleague, Dr Michael Greco, for the nomination and Drs. Susan McMullan, Sonya Moore, and Bernadette Johnson for their letters of support. You are all such amazing educators, and I have learned so much from all of you.

I would not have been able to be engaged in nurse anesthesia education without the support of my family, including my daughter Meghan Hueper who considers the AANA her family too.
