

## 2024 Annual Congress Poster Application

**You must select "Save/Next" on the bottom of each page in order for your progress to be saved. Use the same browser and device, and do not clear your cache until after submission. You are required to keep a copy of your abstract contents for your records.**

**NEW: Applicants are required to submit an abstract only for review, not a general poster file. Download the abstract template here. All categories qualify for general poster presentation (and oral presentation at Annual Congress). We do not accept literature reviews. The Poster Sessions are conducted in person so no "virtual only" presentation option is available. You will present your poster onsite as well as virtually. When poster award announcements are made, more meeting details will be provided.**

\* 1. Instructions Attestation: Please review [these instructions](#) before you begin your application.

I affirm I have read the instructions in the link above and will de-identify information where instructed.

\* 2. Questions Attestation: Please review these [qualifying questions](#) before you choose a category.

I affirm I have read the qualifying category questions in the link above.

\* 3. Principal Presenter's Contact Information:

Each poster must have a unique presenter & e-mail address. We will only communicate with the principal presenter of each poster. Only one poster submission is allowed per presenter. Exception: One presenter can present two posters if they are related to the same subject matter & fall into the same category **and** subcategory. Credentials tip: Include only military rank, licenses, & highest degree achieved. Do not include punctuation within credentials. Do not include SRNA or RNAS. Review the [credentialing guidelines here](#). If a party is not an AANA member, please indicate 000 in the AANA ID number field.

## 2024 Annual Congress Poster Application

### Research (Quantitative or Qualitative)

**You must keep a copy of your submitted abstract. If you are pasting text from a word processing program such as Microsoft Word, please first paste the text into a plain text editor such as Microsoft Notepad or TextEdit to strip out unnecessary formatting. Please include the information indicated below and note the maximum characters (not words) allowed for each text box. The character maximums include spaces. When using an acronym for the first time, it must be spelled out. Do not use bullets or lists; you must use complete sentences. DO NOT include any identifying information within the fields below (i.e., names, affiliation, etc.) as it will be sent for blind review.**

**Research uses the scientific process to generate new knowledge and evidence about a subject using methodology including measurements of variables, collection and statistical analysis of data and conclusions based on results of the study.**

\* 20. Research Introduction

- 875 characters (including spaces) or less
- Does the title reflect the research project?
- Is the significance of the problem and/or phenomena clearly described?
- Is the need for the study clearly demonstrated?
- Is the Research Question clearly stated and aligned with title/background (Quantitative Research) or Is the Theoretical Framework appropriate to inform study (Qualitative Research)?

\* 21. Research Methods

- 1050 characters (including spaces) or less
- Is the Research Design appropriate and logically consistent for research question(s) posed? (Qualitative Research/Quantitative Research)
- Is Protection of Live Subjects addressed adequately?
- Are the sample, setting and data collection clearly described and consistent with methodological approach including instruments/specific methods? (Qualitative Research/Quantitative Research)
- Is the data analysis clearly described and consistent with research design and methodological approach?

\* 22. Research Results

- 1050 characters (including spaces) or less
- Are the results reported in a clear, concise and accurate manner?
- Are the results aligned with the research design, purpose, goals?
- Does the statistical (Quantitative Research) or thematic (Qualitative Research) analysis support the results and is the interpretation of results sound?
- Are reliability and validity addressed (Quantitative Research) or is trustworthiness addressed (Qualitative Research)?

\* 23. Research Discussion
