RESEARCH SCORING RUBRIC (Qualitative and Quantitative)								
	Character count maximum (with spaces)	Criteria	YES (1 point)	No (0 points)	If no, please comment.	Score	Reviewer comments	
Overall		Is there any critical flaw or weakness that would preclude the abstract from being accepted such as being inaccurate, incomplete or a literature review only?* If so, application will be rejected. *A literature review ONLY will not be accepted. A literature review is a review and synthesis of existing published literature on a specific topic or research question.				Separate Y/N question. If yes, reject. Provide comment but no numerical score.		
Title/Introduction	875 characters (including spaces) or less	Does the title reflect the research project? Is the significance of the problem and/or phenomena as evidenced in the literature review clearly described? Is the need for the study clearly demonstrated?						
		Is the Research Question clearly stated and aligned with title/background (Quantitative Research) or Is the Theoretical Framework appropriate to inform study (Qualitative Research)?						
Methods	1050 characters (including spaces) or less	Is Protection of Live/Animal Subjects addressed adequately and is a statement regarding IRB/IACUC approval/exemption included?						
		Is the Research Design appropriate and logically consistent for research question(s) posed? (Qualitative Research/Quantitative Research)						
		Are the sample, setting and data collection clearly described and consistent with methodological approach including instruments/specific methods? (Qualitative Research/Quantitative Research)						
		Is the data analysis clearly described and consistent with research design and methodological approach?						

Results	1050 characters (including spaces) or less	Are the results reported in clear, concise and accurate manner?			
		Are the results aligned with the research design, purpose, goals?			
		Does the statistical (Quantitative Research) or thematic (Qualitative Research) analysis support the results and is the interpretation of results sound?			
		Are reliability and validity addressed (Quantitative Research) or is trustworthiness addressed (Qualitative Research)?			
Discussion	1400 characters (including spaces) or less	Are the discussion and conclusion supported by the results?			
		Are implications and recommendations for practice discussed?			
		Are study limitations discussed adequately?			
		Are suggestions for future research included?			
Writing Style & Format		Are guidelines followed?			
		Is APA format correct?			
		Is correct grammar, punctuation and sentence structure used?			
		Is the abstract logical and well organized?
