

# SAMPLE

## **SUBSCRIBER INSTRUCTIONS**

Participants will need a computer with a recent version of Adobe Flash installed, as well as an internet connection sufficient for streaming media. The activity is hosted on (website).

Each subscriber must log onto the website with their individually assigned log-in credentials. The activity is a self-paced presentation with visuals and audio. The online-module order is as follows

- 1) Learning Activity
- 2) Post-test
- 3) Learner Self Evaluation

All components of the activity are taken online. The assessment and post-test remains locked until the learning module is completed. To receive credit, participants must (1) read the target audience, learning objectives, and disclosure statements, (2) complete the educational activity online, and (3) complete the post-test and activity evaluation.

It is estimated that this activity will take approximately 1 hour to complete. To receive 1 credit, learner must receive a minimum score of 80% on the post-test. Only 1 attempt is permitted to reach 80% score.

The certificate of completion is available for download once all requirements have been met. The certificate is stored in learner's achievements section of our LMS and can be re-downloaded on demand at any time once they have completed the activity.

### **Target Audience:**

Anesthesiologists & CRNAs

### **Disclosures:**

Individuals involved in the planning, reviewing or execution of this activity have indicated they have no relevant financial relationships to disclose.

### **Program Description**

The purpose of this activity is to educate CRNAs concerning how MACRA and MIPS will impact their practice and potential reimbursements. CRNAs are defined as “eligible clinicians” for the MACRA rules. With new and changing CMS MACRA reporting requirements, this activity covers what anesthesia clinicians must do to remain compliant in their clinical practice and how to document appropriately.

### **Learning Objectives**

At the conclusion of this activity, participants will be able to:

1. Have working knowledge of the evolving physician reimbursement system
2. Have working knowledge of the CMS MACRA reporting and reimbursement timelines
